

# GLASS SAUNA KIRKE

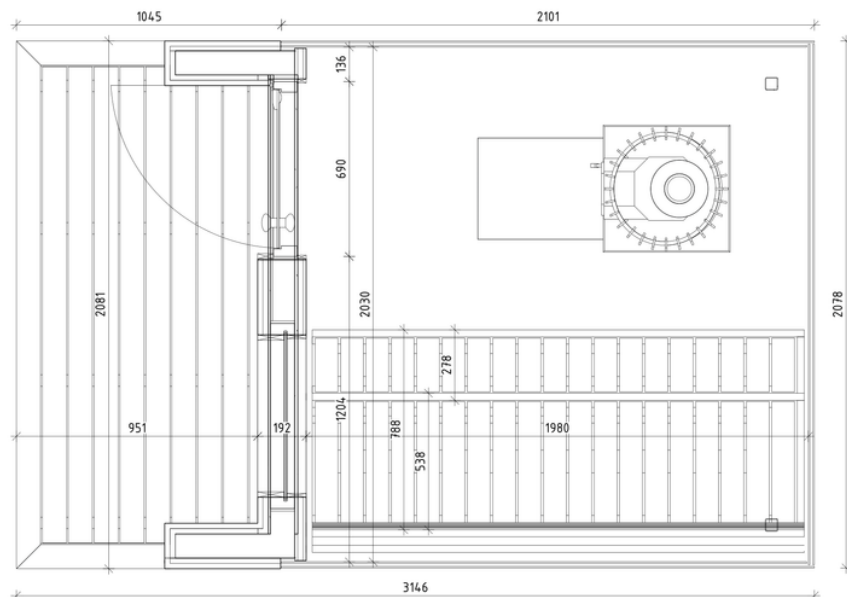

Always there. Always together.

1-room sauna with a small front terrace. Sauna has three external walls, including the back glass one. Wooden wall with a glass door and a separate window. All this ensures sauna visitors have a 360-degree view. Upon request, it is possible to separately order a terrace panel in front of the sauna.

\* - Delivery time could be very long as these shades are rarely used

\*\* - If possible, we will grant the wishes.

Exterior finish based on the client's wishes. Possible options: painted cladding board with different profiles and dimensions, heat-treated cladding board, tile material, etc.

The sauna room door is made from glass and lockable. Shades can be chosen based on the glass panel shade.

Interior finish according to customer. Essentially the entire selection available in stores.

Pick between an electric or wood-burning heater. The electric heater can be controlled via a smartphone app. We use HUUM heaters, but it is possible to install the heater from a different manufacturer, upon the client's request.
